Social Schedule:

Brooklyn is growing in its interest as a “must see” destination. The DUMBO area is arguably one of the most spectacular regions to explore. There will be expert advisors (with the last name of LEE and may look like me) who will be available throughout the weekend to help guide you.

Here is an overview of our area:

The Brooklyn Bridge

GETTY IMAGES

The view from the Brooklyn Bridge is almost as iconic as the [view of the bridge](#) itself. First opened in 1883, it's a National Historic Landmark and a New York City Landmark, and at more than a mile long, it offers unobstructed views of the downtown skyline.

Walk from lower Manhattan and over to DUMBO before tucking into a pizza at [Juliana's](#) (half red, half white if I'm invited).

Brooklyn Bridge Park

THOMAS ROCHE/GETTY IMAGES

Walk 1.3 miles through this [waterfront park](#) to take in unmatched views of the city and the East River. The 85-acre park was once an industrial set of piers that were turned into a public space complete with a sand beach and waterfront reading area. Don't forget to leave room for an ice cream cone from [Ample Hills at Brooklyn Bridge Park](#) (it's open during the warmer weather).

After, head up the block to the Brooklyn Heights Promenade for an elevated view of the city and plenty of space to go for a jog or simply take a seat on a bench and enjoy the view.

Immediately adjacent to our hotel is the East River Ferry. It is a quick ride to the South Street Seaport area. There will be spectacular views of the lower Manhattan skyline during the ride. South Street Seaport has a ton of shops and restaurants. It's also a short Uber ride or walk to visit Wall Street, Chinatown, and the 9/11 Memorial.

The current East River route of NYC Ferry by Hornblower connects growing residential and business communities along the East River to communities in Midtown and the Financial District.

Only 4 minute Ferry ride to Manhattan!!

Eating:

Across the street are my two favorite foods, pizza and hamburgers! Shake Shack is my favorite hamburger...in the world. Better than In n' Out, better than Five Guys, better than Umami Burger. Go and try one and let's argue.

Also, across the street is NY's first pizza oven. It started at Juliana's location as Grimaldi's pizza and they then moved next door to their first location. If you want to eat a historic pizza, this is the place to go.

Shopping:

I don't know anything about shopping. But my local experts (with the last name of LEE and may look like me) will be fully briefed and available to help you. (Christina Lee cell: 614-499-5839)

Conference Dinners:

Friday Faculty Dinner (6pm – 9pm):

The Faculty dinner will be held at the hotel at the rooftop lounge. All members and family are invited. Out top tier sponsors will also attend. With direct views of the Brooklyn Bridge, we will have heavy appetizers and several carving stations to replenish a long day of work and play. Open bar of course.

Fireside Chat 9pm:

Immediately following dinner, for those who would like to continue their celebration, we will hold an intimate fireside chat with an academic discussion. This will be held in a private room adjacent to dinner. All members are welcome to join for after dinner cocktails and debate.

Saturday Gala Dinner (6pm – 9pm)
River Café

The River Café

This Michelin starred restaurant will host our gala dinner. We will have a guest speaker Barry Lewis. He is an architectural historian who specializes in 18th century European and American architecture. He trained at UC Berkley and the Sorbonne and now teaches at the Cooper Union.

Immediately afterwards, we will have another Fireside chat at 9pm.

Final Comments:

Please feel free to contact me with any questions. I look forward to seeing you all for our annual meeting.

See you soon.
